Project

of Model(s): The Black Ops
Report of: MIL-PRF-32432(GL)
Project ID(s): Z-PVW082321-02-01

Attn: Jon Uda

Date: September 09, 2021

Product Description: Black Front and Temples w/ Grey Lens

On August 23, 2021, COLTS Laboratories received Spectacles: The Black Ops from Pit Viper Worldwide . From August 25, 2021 through September 08, 2021 COLTS Laboratories tested these Spectacles in accordance with MIL-PRF-32432(GL) to the following test protocol: MIL-PRF-32432(GL) Ballistic Fragmentation - Class 1.

Detailed test results are included.

Final Conclusion:

The Spectacles: The Black Ops (Black Front and Temples w/ Grey Lens) do comply with MIL-PRF-32432(GL) for the test(s) included in this report.

Please contact us should you have any questions concerning this report.

Respectfully submitted,

Test/Property	Paragraph	Requirement	Test Results	Acceptance
Ballistic fragmentation protection Class 1 spectacles	3.6.3.1	The spectacles shall provide ballistic fragmentation protection in all configurations. Spectacles shall be sufficiently durable to remain intact (i.e., all components required for protection and proper retention of the eyewear remain attached) upon/after impact. Class 1a spectacles shall be tested both with and without prescription lenses for initial approval of the design for use with the UPLC.
